## 2023 Rural Emergency & Critical Care Practice Course

Feb. 25-26, 2023 | Augusta, GA

Medical College of Georgia  
at Augusta University

This year we continue the tradition of rurally-focused, didactic and hands-on, procedural skills learning. New this year will be interdisciplinary lectures with topics from different perspectives: clinician, nurse, pharmacist, and respiratory therapist. Come learn from the best and then practice in our simulation lab and cadaver procedural stations and don't miss the World Famous Cases 'N Beers! Have some beer with your friends while getting CME at the Augusta GreenJackets stadium.
